assortment guide

Professional 2022

There's no time to waste

This year, we're bringing food waste to the table – and fresh energy to the conversation about sustainability. New BioDunice!® placemats, shown here, are produced using potato as binder while new BioDunisoft® napkins (see page 4) feature a pioneering BioBinder™ made from food waste. As a result, they are both fossil-free and compostable: an industry first! We're also introducing fibre-based packaging too. The world needs action. We're determined to play our part.

One-stop-shop

You can find everything you need in one place – from lighting solutions to napkins and table covers – with our full-concept collection. Our experts are happy to organise custom solutions too.

Mix 'n' match

It's easy to create the mood you want with the Duni collection – everything is designed to match perfectly.

Sustainable design

We offer you a market-leading choice of eco-conscious materials and colours.

Convenience

Ethically produced and easy to use, our products show you never have to compromise between responsibility and practicality.

Why Duni

The Duni collection gives you total freedom. Freedom to care for nature. Freedom to bring any creative vision to life, whatever the occasion. Freedom to work smart and have more time to delight your guests. We hope it inspires you to find new ways to shine bright and build buzz around your business.

Small step for food waste, giant step for the industry

One third of all food is wasted. But it doesn't have to be this way. With pioneering BioDunisoft® napkins you can be part of the solution. They feature an OC Biobinder™ made from corn, lemon, and other food waste from the food industry and wheat and corn cultivation. Consequently, they are fossil-free and home compostable – a breakthrough for our industry.

Team work makes the dream work

Together, on our mission to create sustainable goodfoodmood, we're exploring many avenues. To create the OC Biobinder™ we teamed up with award-winning Swedish company OrganoClick. They are acclaimed for designing renewable, functional cellulose-based materials.

Your questions answered

Got a sustainability-related question about our products and the different Ecolabels they carry? Our team is standing by to help with guidance and advice. We're committed to offering top-tier service and helping our customers to reduce environmental impact.

Confidence-inspiring certifications

The products in our collection carry a variety of environmental and quality certifications. They underline the sustainability and quality of our products. Some also shed light on how to dispose of them after use responsibly.

OK COMPOST

The OK Compost Industrial and the OK Compost Home label, from the certification body TÜV Austria, indicates that the product is suitable for composting. As the name suggests, OK Compost Industrial ensures the product is suitable for industrial composting and meets the European standard EN 13432. OK Compost HOME products can be put on the compost heap in your garden at home

THE FOREST STEWARDSHIP COUNCIL® (FSC)

Ensures that the product is made of wood from forests managed in an environmentally appropriate, socially beneficial and economically viable manner.

NORDIC SWAN ECOLABEL

Identifies the best products on the market from an environmental point of view. For instance, it confirms our stearin candles consist of 90% renewable materials and minimise soot emissions.

THE RAL QUALITY MARK

Awarded by the European Quality Association for Candles. It guarantees the candle burns cleanly, contains no hazardous materials, retains its shape and is safe and reliable.

From mashed potatoes to mindful dining

You can call our new BioDunicel® placemats a labour of love. Our dedicated R&D team at Bramsche gave everything to develop a new material that makes the material fossil-free and compostable. After intensive experimentation, they did it! The secret they discovered? Starch from potatoes. It keeps the layers together and all the traditional Dunicel® softness and quality. That way, you can provide the same rewarding guest experiences while lowering your environmental impact. Good news for your business and the planet!

Food for thought

Committed to lead the way when it comes to transparency, we commissioned South Pole to conduct a Life Cycle Assessment (LCA) on both our new Biomaterials. The key findings are:

- **BioDunisoft®** produces 18,5% less* carbon emissions, or 15 grams CO₂e** than the benchmark current Dunisoft® material.
- A 100% shift to our new **BioDunisoft®** would mean a reduction of more than 2000 tons of CO₂e, or more than 13 million km driven by a standard car.
- **BioDunicel®** produces 17,1% less* carbon emissions, or 31 grams CO₂e** than the benchmark current Dunicel® material.
- A 100% shift to our new **BioDunicel®** would mean a reduction of more than 1500 tons of CO₂e, or almost 10 million km driven by a standard car.

* Preliminary result, awaiting independent peer review.

** CO₂e - Term to describe different greenhouse gases in a common unit. It signifies the amount of CO₂ which would have the equivalent global warming impact.

Seeing is believing!

100% Home Compostable BSH

Fibre-based packaging. Forever.

Circular thinking starts with considering the impact of everything you do. Mindful of this, we have removed all the plastic from our packaging. We've replaced it with paper or cardboard. It feels good. Every step away from fossil-based material is a step closer to a brighter future for the planet.

100% Fossil-Free by 2030

By 2030, at Duni we will have a totally fossil free production, be climate neutral and only use 100% renewable or recycled plastic. It's going to be tough to achieve but we're united in our determination to achieve it.

TABLE COVERINGS

EFFORTLESSLY ENHANCE ANY DINING OCCASION

- Flawless hygiene, colour and shape
- Sanitary barrier between surfaces and cutlery
- Set and clear tables fast and easily
- Protects and accentuates tables
- Get the ideal setting for any occasion

100% Carefree

New BioDunicel® placemats, like new BioDunisoft® napkins, represent a pioneering eco-innovation. They are also home compostable, and fossil free. See how we made it possible on pages 6 and 7.

SWAN ECOLABEL

To meet the strict standards of the Swan Nordic Ecolabel, our candles must:

- Consist of more than 90% renewable materials
- Minimise soot emissions and burn clean

POSITIVE

The bamboo we use for many products produces 35% more oxygen than other plants in the same place. It absorbs five times more CO₂ too!

THE SUSTAINABLE GOODFOODMOOD BRAND

At Duni, we create colourful, convenient, sustainably designed table-setting and packaging concepts. Ranging from LEDs and candles to napkins and table covers, these enable you to make your dreams reality, elevate eating and drinking occasions, and live closer to nature.
